

Spraying machines and compressors

HAMA MC3V 110Volt 50L (80L) Roza SPRAYING MACHINE

CE

Spray-Unit designed for spray application of internal and external coatings of high viscosity (paste) and with filler grains up to 3 mm diameter.

Identical machines are also available with motors and controls designed for use with **230 Volt** single phase current.

Technical specifications

HAMA MC3V 50L(80L) Roza 110V

Contents	: 50 ltr (80ltr)
Capacity	: 2 - 8 ltr/min, adjustable by means of a 3-gear pulley
Material hose	: 18 mtr ø25mm
Motor	: 1,5 kW, 110 V, 1P+N+PE
Air usage	: 450 ltr/min
Hopper	: Stainless steel
Dimensions lxxh	: 122x50x73cm
Weight	: 58 kg

HAMA H460 110V Mobile Compressor

CE

Compact powerful compressor in particular designed to use with HAMA spraying machines.

Technical specifications

HAMA H460 110V

Capacity	: 450 ltr/min
Max pressure	: 8 bar (0,8 MPa)
Motor	: 2,2 kW, 110V, 1P+N+PE
Dimensions lxxh	: 65x35x46 cm
Material frame	: Stainless steel
Colour	: Blue
Weight	: 68,5 kg
Included	: thermal cutout, on/off switch and safety valve.
